**Awareness Program and Installation on Disha App**  
**on**  
**30.04.2022**

**SRR & CVR GOVERNMENT DEGREE COLLEGE (A),**  
**VIJAYAWADA, Krishna Dt, AP**

**Title:** Awareness Program and Installation on Disha App

**Activity:** Awareness Programme

**Date:** 30.04.2022

**Resource Person:** Sri G.Venkata Kumar, Reserve Police Sub Inspector, Machavaram police station and Teem

**Purpose :** To provide awareness to the students on Disha App and how to overcome from unexpected attacks and human trafficking through Disha app..

**Context:**

Disha App is basically a mobile application which women can use to alert nearest the police station in case of an emergency. The State government, at the instance of Chief Minister YS Jagan Mohan Reddy, is promoting the Disha App in a big way for the safety of women.

The app's SOS button not only sends an alert to Disha Command Control Centre, but it also alerts five phone numbers that can be registered as emergency contacts. If the app's hand gesture feature is turned on, even shaking the mobile phone five times will lead to an SOS alert being sent.

Even if you know the way, Waze tells you instantly about traffic, construction, police, crashes, & more. If traffic is bad on your route, Waze will change it to save you time. Why Waze? Be prepared, drive with Waze

The application works completely OFFLINE and DOES NOT REQUIRE GPS signal or WiFi Connection. TMH Disha allows General and Private patients to easily navigate to their desired locations.

**Outcome of the Activity:**

The Women Empowerment Cell has organized Disha App installation and awareness programme on 30.4.2022 with the association of Reserve Police Inspector, Machavaram, Vijayawada. G.Venkata Kumar, RSI and their teem, staff and students were participated in this programme and address the students in this regard. Regularly the police teem is vising the

college and guide students (Boys and Girls) to install disha app with the help of college student volunteers.

In SRR & CVR Government Degree Colleges (A), Vijayawada, the police department has been visiting college to spread awareness about Disha app among students and help the students to install the app in their mobiles. Disha app is for all types of security for the women and men seeking police help. The police team and college staff also giving awareness about Disha App.

Disha SOS (Save Our Souls) is the best tracking system available now to the police to help victims. It works even without internet facility also. Even it works by shaking the phone after installing the app on mobiles devices. When you press the SOS button, first 10 seconds of audio and video will be recorded for the basic assessment of victim position after getting connected to control room.

Form that calls received onwards police acts accordingly and touch with the victim continuously. first, they assess situation distance and location after that they will suggest safety precautions to avail the police support or safety places like ATM centers, CC camera available places, etc before they reach to the place of the victim. All this processor is recorded not only in control room spontaneously it acts and sends the message to the local police station and patrolling parties to alert them for the safety of the victim to reach as quick as possible.

In the college the staff requesting the students to download the app and teach them to how to download the app and create awareness, uses and advantages of this Disha app and encourage them to spread awareness to the students among them and surrounding society to avail the best use of this app Disha.
