Name of the Activity	Awareness programme on NATIONAL FISH FARMERS DAY Attended by Aquaculture technology students and Aquaculture cluster elective students
Place	ICAR Regional Fresh Water Research Institute Penamaluru
Date	10/07/2019

- Students were explained about the importance of National Fish Farmers Day.
- The speakers explained about National Fish Farmer's Day that it is celebrated on 10th July every year to demonstrate solidarity with all fisher folk, fish farmers and concerned stakeholders throughout the country.
- Every year, this annual event is celebrated to commemorate Professor Dr. Hiralal Chaudhury and his colleague Dr. Alikunhi for their contribution in achieving the successful induced breeding of major carps on 10th July, 1957 at Angul in Odisha for the first time in the country through administration of carp pituitary hormone extract in the breeding of major carps.
- The technology was later on standardized and fine-tuned by developing synthetic hormone for quality seed production across the country.
- This pioneering work of induced breeding over the years has transformed the growth of aquaculture sector from traditional to intensive aquaculture practices and led to success of modern aquaculture industry.
- Students were enlightened about the different aspects of the aquaculture and about the day of importance.
