Botanical tour Activity report

Department of Botany organized Botanical tour to Araku from 25th January to 28th January 2019. Twenty students attended the Botanical tour and were accompanied by three faculty members. During the tour students had visited “Padmapuram Botanical Gardens” a historic garden located on the way to araku road. It purely meant for attracting the tourists through its displayed fascinating flowers. Students observed the cultivation of Spices like *Piper nigrum* and beverages like Coffee plantations in the valley of Araku. Students interacted with the tribal people to know about the lifestyles. Tribals of Araku valley used a method of cultivating crops known as Podu cultivation. They collected forest products and sell them in a public gathering known as “Santha” which is the source of income to many tribal families. Students also visited tribal museum which has been designated to showcase tribal life style in motion, starting with a kitchen that displays utensils made of iron and mud. The sculptures in the museum made up of caly which depict their day to day activities. Being a part of Botanical tour students are also visited Coffee museum, Chaparaai water falls and Galikonda view point which is the second highest peak in the Eastern Ghats for spectacular view of Araku valley.
