Date: 22/01/2022

RESOURCE PERSON: Dr. C.H. Manjula

Assistant Professor

Dept. of Food and Nutritional Sciences

Acharya Nagarjuna University

Guntur

Time: 12pm

Students Participated: I & II MBF Students

The Department of Food Technology has organized a guest lecture on “**Future Prospects of Food Technology**” for 1st and 2nd year BSc students through virtual mode.

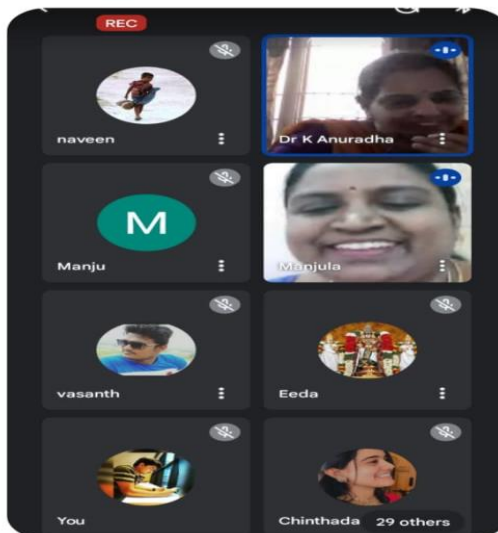

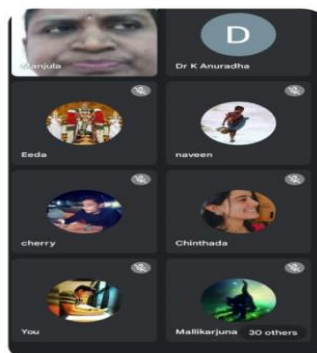

The resource person Dr. Manjula has said that Food technology involves study of characteristics of food, its nutritional composition, reactions and changes that take place at various levels of processing and storage, microbiological aspect of food to prevent spoilage and enhance shelf life. She said that professionals work to improve manufacturing methods through new processing, preservation and packaging technologies as well as develop new products and technologies to improve the shelf life of the product.

She also highlighted that food processing sector is growing globally and skilled persons are in great demand. Nobody can survive without eating food. Therefore, food industries will always keep processing food and hiring professionals.

S.R.R.&C.V.R. GOVT. DEGREE COLLEGE (A)

Department of Food Technology

It was an interactive session and Dr Manjula said that degree in food technology may offer a global carrer as research scientists, food inspectors, quality controller, food processing supervisors and so on.
