Education is the process of facilitating learning, or the acquisition of knowledge, skills, values, morals, beliefs, habits, and personal development. Education originated as transmission of cultural heritage from one generation to the next. Today, educational goals increasingly encompass new ideas such as liberation of learners, critical thinking about presented information, skills needed for the modern society, empathy and complex vocational skills.

Many agree that education is a purposeful activity directed at achieving certain aims, especially the transmission of knowledge. There are movements for education reforms, such as for improving quality and efficiency of education towards relevance in students' lives and efficient problem solving in modern or future society at large, or for evidence-based education methodologies.

### A Source

Testing Plagiarism ABC College for Women is one of the most prestigious institutions of London with a full time enrollment of about 8000 students. The glorious academic values of this oldest premier post-graduate female institution have been shaped by its institutional history, which is spread over a span of 64 years. In January 2002, the University made all strong decisions for the improvement in Higher Education. Established in May 1962 as an Intermediate residential college and affiliated with the University of the Oxford, it was housed in a building on XYZ Road, with strength of 90 students and then the progress flourished with full shot. And College started programs like Electronics, Environmental Science, Fine Arts, Economics and Mass Communication. Various national industries and linkages with foreign Colleges helped a lot...
