<b>Details of Resource Persons (Name , Designation etc., )</b>	<b>B.SC BZC Students</b>
<b>No of students participated</b>	<b>35</b>
<b>Name of the Lecturers who planned &amp; conducted the activity</b>	<b>Planned and Organized by Mrs D.Jyothi Lecturer In Charge Ms G. Vara Lakshmi Lecturer in Botany Ms V. Naga Lakshmi Lecturer in Botany</b>
<b>Remarks</b>	<b>Participating in this seminar is highly beneficial to the students</b>

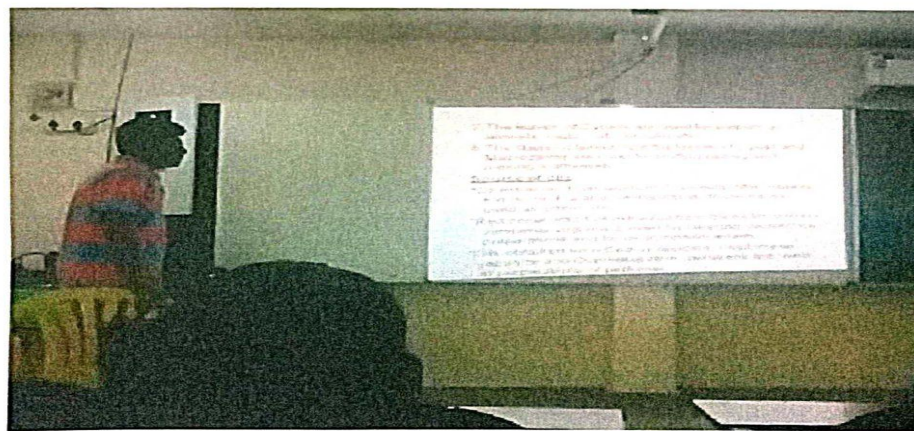

Department of Botany organized student seminar on 15.2.2019 for I BZC II semester students

## Student Seminar

Student of I.B.Z.C-EM has given a nice power point presentation on Economic Importance of Gymnosperms

He has clearly explained importance of Gymnosperms as wood yielding etc.

## **Report:**

**Students of I BZC , II Seminar Participated with much enthusiasm in the seminar.**

**Unlike lectures, seminar classes are meant to be interactive, with students delivering lectures rather than just listening to a Lecturer and taking notes. Because of this, seminar classes are great for engaging with complex ideas but less suitable for “how-to” or hands-on lessons.**

**Participating in a seminar has numerous benefits, including improving communication skills, gaining expert knowledge, networking with others and renewing motivation and confidence.**

**Participating in this seminar helped students to increase their subject skills and make them learn new things related to the Gymnosperms and Pteridophytes .**

**Student Seminars are for small groups of students studying the same course. They are normally led by a Lecturer in a seminar room. Seminars are designed for students to talk about topics in the course reading or lectures in detail, so students have to take an active part. I BZC, II seminar student seminar attained its desired objectives**
