

**SRR & CVR GOVERNMENT DEGREE COLLEGE
(AUTONOMOUS)
MACHAVARAM, VIJAYAWADA-520004
DEPARTMENT OF ZOOLOGY**

Name of the Activity	ONE WEEK TRAINING PROGRAMME on Principles of Aquaculture, and Demonstration on aquaculture laboratory procedures
Place	Organized by state institute of fisheries technology SIFT, Kakinada, Andhra Pradesh
Date	21-3-2022 to 26-03-2022

The State Institute of Fisheries Technology (SIFT) in Kakinada offers a range of training programs to aquaculture students. These training programs can be important for students in several ways:

Hands-on training: SIFT provides students with hands-on training in various aspects of aquaculture, including hatchery management, pond management, feed preparation, and disease management. This training can enhance the students' technical skills and help them to be better prepared for a career in the industry.

Exposure to new technologies and innovations: SIFT is equipped with modern infrastructure and state-of-the-art equipment, which can expose students to new and advanced aquaculture technologies and innovations. This exposure can broaden their knowledge and understanding of the field and inspire them to innovate and develop new methods.

Networking opportunities: SIFT brings together students from different parts of the country and industry professionals, researchers, and other stakeholders in the

aquaculture industry. This provides opportunities for students to network with professionals and learn about job opportunities in the field.

Collaboration and research: SIFT offers students opportunities to collaborate with researchers and other students on research projects related to aquaculture. This can enhance their research skills and deepen their understanding of the field.

Industry connections: SIFT has close connections with the aquaculture industry, and many of its graduates go on to work in the industry. By completing a training program at SIFT, students can establish connections with industry professionals, which can be valuable for building their careers.

Our students had Hands on Experience in STATE INSTITUTE OF FISHERIES TECHNOLOGY (SIFT) IN KAKINADA A.P by one week Training Programme on Principles of Aquaculture and Demonstration of Aqua Lab Procedures (Water and Soil Analysis, Microbiology, Feed Analysis and PCR) in different parameters and sectors of aquaculture.

In summary, training programs at SIFT can provide aquaculture students with practical experience, exposure to new technologies, networking opportunities, research opportunities, and connections to the industry. These experiences can help to enhance their knowledge, skills, and career prospects in the field.
